**PLEASE KEEP THESE IMPORTANT GUIDELINES FOR FUTURE REFERENCE.**

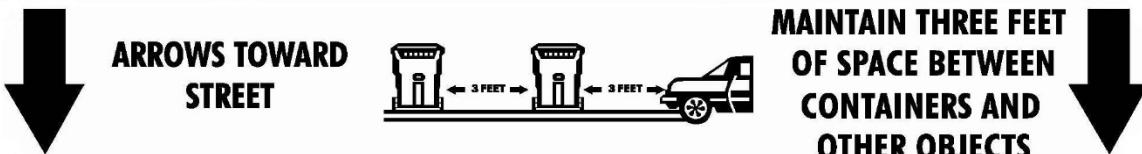

**AUTOMATED COLLECTION SERVICE:** Place trash inside a waste bag then place into the provided cart. All items must be in the cart with the lid closed. Cart size of 95 gallon (this will hold approx. 5-6 white kitchen bags) is provided by Vogel's for the collection of your waste. Alternative cart size of 64 gallon (this will hold approx. 3-4 white kitchen bags) or 35 gallons (this holds approx. 1-2 white kitchen bags) is also available, see Cart Exchange below.

**PLACEMENT:** Clearly identify your street number on your mailbox or some type of permanent marker near the road. It's important to make the containers visible to the driver. Vogel carts should be placed out the night before your scheduled collection day and empty carts removed by the end of the collection day. Each Vogel cart has a serial number linked to your account, be sure to keep your cart(s) from getting mixed up with the neighboring carts.

Please place your carts on a level area at the curb line no more than 3 feet from the street. If space or slope issues on your property make cart placement a problem, please call our Customer Service Department for help.

Leave at least 3 feet between the carts and adjacent poles, trees, mailboxes, basketball nets, parked vehicles, overhead wires, fences and other obstacles.

**The lid needs to open to the curb and the wheels must be facing the house.**

**WEATHER:** In winter months, please remove snow from the area where you place your containers and have a reasonably clear approach path for both the driver and truck. # At-the-Door Household Hazardous Waste & Electronic Waste Collection for Richland Township

## WHAT IS HHW?

Household Hazardous Waste (HHW) is leftover household products that contain corrosive, toxic, ignitable, or reactive ingredients that require careful disposal.

What are the benefits of proper HHW recycling and disposal?

- ✓ Conserves resources and energy that would be expended in the production of more products
- ✓ Reuse of HHW products saves money and reduces the need for generating hazardous substances
- ✓ Prevents pollution that could endanger human health and the environment

So before you toss it, consider the following:

- Latex paint is not hazardous waste. Consider donating it to community groups or organizations for re-use!
- Many automotive stations, auto parts stores and supply stores will accept used motor oil for recycling.
- Automotive batteries may be exchanged at the place of purchase, or turned in at some battery retailers and scrap yards.
