

# COMING SOON

A new playground and splash pad combination will be installed at the Richland Township Community Park in the Spring of 2019. Richland has partnered with DCNR to replace the existing large playground near the baseball fields/concession stand, install a new playground near the Family Recreation Area's large pavilion, and install a new pavilion/shelter and a new restroom facility at the dek hockey and soccer area of the Park. These projects will be completed by December of 2020.

## *This Play On! playground is a National Demonstration Site.*

Play On! will be honoring us for our dedication to best practices in youth fitness. Our playground will offer the six elements of play which helps develop healthy active children.

### *Swinging , Sliding, Spinning, Balance, Climbing and Brachiating*

We are bringing best practice design to our playground to ensure children reap the benefits of active behavior through six elements of play. The space promotes the benefits of playing in an outdoor environment, which research has shown to promote additional healthy benefits. A Grand Opening Celebration date will be announced in the future.

New Playground and Musical Area  
Summer 2019

New Splash  
Pad Summer  
2019

And to complete the pavilion area we will also be adding a new playground!

Dek Hockey and Soccer Area

We plan to add four restrooms, play area and a shelter which will be completed by 2020.
